

ENVIVE is a **mission-driven** consulting and **project management** firm specializing in **health and human service** initiatives. We **design, lead, and implement innovative strategies** that enhance organizational performance, workforce development, and community impact.

Services

Strategic Initiative Design

Design, lead, and implement initiatives to address complex health, public health, and behavioral health challenges.

Project Management

Customized project management services that deliver measurable impact, ensuring projects are completed on time and within budget.

Leadership Development & Mentoring

Leadership growth through well-established programs and cohort models that empower leaders to drive meaningful change.

Workforce Development

Customized training solutions that build skilled, resilient individuals, teams, and organizations.

Organizational Assessment

Comprehensive assessments that provide actionable insights to strengthen leadership, culture, and operations.

ESG Assessment

Consultation and implementation of environmental, social, and governance (ESG) practices for developing sustainable healthcare operations.

Health System Optimization

Tailored solutions that close leadership, operational, and clinical quality gaps.

Integrated Service Implementation

Support for behavioral health integration, emergency interventions, and system-wide collaborations.
